

NATIONAL ROOFTOP SOLAR MISSION (PHASE-III)

Circular No. MNRE/2026/RTS-089 | Notification Date: 12 January 2026

1. Scope & Objective

This circular establishes operational guidelines for financial grants and central financial assistance (CFA) for grid-connected rooftop solar photovoltaic (PV) installations across domestic residential and agrarian micro-enterprises during financial years 2026-2028.

2. Eligibility Criteria for Applicants

- Clause 2.1: The applicant must possess lawful ownership or a documented long-term registered lease (minimum 10 years remaining) of the residential dwelling.
- Clause 2.2: The electricity consumer account (CA) number must be strictly designated under the Domestic/Residential tariff category with the local DISCOM, with zero outstanding arrears.
- Clause 2.3: Total cumulative annual household taxable income must not exceed INR 24,00,000 for Priority Category-A subsidies.
- Clause 2.4: The installation roof area must be shadow-free with structural load endurance certified by an empanelled civil engineer for at least 15 kg/sq.m.

3. Subsidy & Financial Assistance Slabs

- Tier 1 (Up to 3 kW Capacity): Fixed Central Financial Assistance of 40% calculated on the national benchmark capital cost of INR 60,000 per kW.
- Tier 2 (Beyond 3 kW and up to 10 kW): 40% for the first 3 kW, and 20% for additional capacity up to 10 kW.
- Tier 3 (Residential Welfare Associations / Group Housing): Flat 20% CFA up to a maximum aggregated capacity of 500 kW for common facility loads.

4. Mandatory Beneficiary Obligations

- Obligation 4.1 (Bi-directional Metering): Beneficiary must submit a formal application for grid synchronization and install a DISCOM-certified bi-directional net-meter.
- Obligation 4.2 (Maintenance Warranty): Beneficiary must execute a 5-year Comprehensive Maintenance Contract (CMC) with the authorized vendor.
- Obligation 4.3 (Data Telemetry): Solar inverter telemetry data must remain online and connected to the National Renewable Energy Portal.
- Obligation 4.4 (Commercial Restriction): Solar electricity produced cannot be wheeled or sold to private third parties; surplus export is strictly routed to the state DISCOM grid.

5. Critical Deadlines and Timelines

- Deadline 5.1 (Application Cutoff): Online submission on the Unified Solar Portal must be registered before 30 November 2026, 17:00 IST.
- Deadline 5.2 (Feasibility Sanction): Local DISCOM must communicate technical grid clearance within 21 working days of application receipt.
- Deadline 5.3 (Commissioning): Installation and trial run must be concluded within 90 calendar days following technical sanction.
- Deadline 5.4 (Subsidy Disbursement): Direct Benefit Transfer (DBT) shall be credited to the registered bank account within 30 days of inspection certificate issuance.
